Notice a minor blockage in the lower 4 th chamber.

Heart Attack (Myocardial Infarction)

For individuals who have experienced a heart attack (myocardial infarction), it is crucial to follow these health recommendations:

- 1. Adopt a Heart-Healthy Diet – Eat more fruits, vegetables, whole grains, and lean proteins. Reduce salt, sugar, and unhealthy fats.
- 2. Regular Exercise – Engage in at least 30 minutes of moderate exercise (walking, cycling, swimming) most days of the week.
- 3. Manage Stress – Practice meditation, deep breathing, or yoga to keep stress levels in check.
- 4. Quit Smoking & Limit Alcohol – Avoid tobacco and limit alcohol intake to protect your heart.
- 5. Monitor Blood Pressure & Cholesterol – Regularly check your vitals and follow medical advice if needed.
- 6. Take Prescribed Medications – Follow your doctor’s recommendations for heart health management.
- 7. Seek Immediate Help for Symptoms – If you experience chest pain, shortness of breath, or nausea, get medical help immediately.
